Application Developer

cv-018@example.com | Singapore

PROFILE

Application Developer focused on accurate day-to-day work and practical process improvement. Comfortable clarifying requests, documenting repeatable steps and handing over clear instructions to colleagues.

SKILLS

TypeScript; Node.js; MongoDB; Git; Jest

EXPERIENCE

Application Developer | Quartz Quay Services
2022-11 to 2026-08

- Developed TypeScript API routes and workflow rules for customer service requests with validation and access control.
- Stored application records in MongoDB collections and wrote document aggregation pipelines. I have not used a relational SQL database in project work.
- Used Git branches and reviews and maintained Jest tests for request routing, permissions and failed writes.

SELECTED PROJECT

Support dashboard: reduced repeated manual data copying by exporting a daily request summary to a spreadsheet.

EDUCATION

BSc in Information Technology, Harbourview Institute, 2022
