
Arden Pillai

Software Engineer

cv-021@example.com | Singapore

PROFILE

Backend software engineer with four years of commercial development experience. The employment history below lists my only role. Focused on reliable integrations and maintainable services.

SKILLS

TypeScript; Node.js; MySQL; Git; Jest

EXPERIENCE

Software Engineer | Lantern Vale Services

2025-09 to 2026-08

- Built Node.js API handlers for contract renewal and invoice draft generation with approval and validation rules.
- Created MySQL schemas and SQL reporting queries for customer contracts, renewals and invoice lines.
- Used Git peer review and automated Jest tests for renewal dates, pricing rules and access checks.

SELECTED PROJECT

Data migration: checked imported contracts for missing renewal dates and recorded exceptions for the account manager.

EDUCATION

Diploma in Computing, Westridge Institute, 2023

CERTIFICATIONS

No professional certifications listed.
