
Jordan Lee

Software Developer

cv-025@example.com | Singapore

SKILLS

Python
Flask
MariaDB
Git
pytest

EDUCATION

Certificate in Web Development,
fictional Open Harbour Learning
Centre, 2021; no university
degree

CERTIFICATIONS

No professional certifications
listed.

PROFILE

Software Developer focused on accurate day-to-day work and practical process improvement. Comfortable clarifying requests, documenting repeatable steps and handing over clear instructions to colleagues.

EXPERIENCE

Cedar Quay Services
2022-01 to 2026-08

- Built Flask web-service endpoints for customer returns, refund approvals and repair tracking for an electronics reseller.
- Designed MariaDB tables, wrote SQL joins for return histories and migrated legacy spreadsheet records with validation checks.
- Collaborated using Git branches and pull requests; added pytest checks for refund limits and duplicate return requests.

SELECTED PROJECT

Self-directed learning: produced a troubleshooting guide after tracing inconsistent refund results to stale imported records.
