Python
FastAPI
PostgreSQL
Git
pytest

EDUCATION

Diploma in Software Technology,
Crestview College, 2021

CERTIFICATIONS

No professional certifications
listed.

PROFILE

Backend Engineer focused on accurate day-to-day work and practical process improvement. Comfortable clarifying requests, documenting repeatable steps and handing over clear instructions to colleagues.

EXPERIENCE

Juniper Vale Services

Start date not stated to 2026-08

- Implemented Python API endpoints for courier booking and cancellation, including input validation and duplicate request protection.
- Designed PostgreSQL shipment tables and SQL queries for daily job reconciliation.
- Worked with Git pull requests and added pytest regression tests for booking status changes.

SELECTED PROJECT

Shipment export: added a validation summary for operations staff before courier data was submitted.
