
Quinn Yeo

Internal Tools Developer

cv-055@example.com | Singapore

SKILLS

Python
Flask
MySQL
Git
Manual testing

EDUCATION

Diploma in IT Applications,
Riverstone College, 2022

CERTIFICATIONS

No professional certifications
listed.

PROFILE

Internal Tools Developer focused on accurate day-to-day work and practical process improvement. Comfortable clarifying requests, documenting repeatable steps and handing over clear instructions to colleagues.

EXPERIENCE

Amber Vale Services
2023-02 to 2026-08

- Built Flask APIs for equipment check-out and maintenance booking, including rules to prevent conflicting reservations.
- Maintained MySQL asset and booking tables, SQL joins and migration scripts for additional maintenance fields.
- Used Git to share changes with one colleague. Testing consisted of a manual spreadsheet checklist; I have not written automated tests.

SELECTED PROJECT

Equipment audit: reconciled device labels with the asset system and created an import template for future stocktakes.
