PROFILE

Software Developer focused on accurate day-to-day work and practical process improvement. Comfortable clarifying requests, documenting repeatable steps and handing over clear instructions to colleagues.

SKILLS

Python; FastAPI; PostgreSQL; Git; pytest; React

EXPERIENCE

Software Developer | Amber Quay Services
2023-01 to 2026-08

- Built Python HTTP endpoints for stock reservations and order amendments, including validation and retry-safe request handling for a wholesale distributor.
- Designed PostgreSQL order tables and SQL reconciliation queries that exposed mismatches between warehouse movements and billed quantities.
- Used Git pull requests with two developers and added pytest unit and API integration tests to the release workflow.

SELECTED PROJECT

Supplier portal: added a React delivery-status view and a CSV import validation report used by six operations staff.

EDUCATION

Diploma in Software Engineering, Meridian Applied Institute, 2022

CERTIFICATIONS

Cloud Foundations Certificate, fictional Cedar Learning Academy, issued 2025; no expiry stated.
